AIA Members! Join us for an exclusive AIA MEMBERS ONLY Tour at:
PORT MIAMI, TERMINAL B.

About:

THIS CRUISE TERMINAL IS THE FIRST OF ITS KIND, DUE TO ITS STREAMLINED DESIGN, SEASIDE TEXTURES, INTERACTIVE TECHNOLOGY, AND PERSONALIZED EMBARKATION EXPERIENCE. THE FIRM’S ICONIC DESIGN OF THIS ALL-Glass TERMINAL WILL FEATURE A SPIRALED, MULTILEVEL FACADE THAT OPENS UP TO STUNNING OCEAN VIEWS. THE EXTERIOR DESIGN FEATURES THREE GIANT, ARCHING, SEE-THROUGH DOMES THAT RESEMBLE THREE PEARLS SHAPED LIKE A NAUTILUS. IMAGINE THE GRANDNESS OF ENTERING THIS SPACE. THIS 166,000 SF STRUCTURE WILL SPAN A DISTANCE THAT EXCEEDS THE LENGTH OF TWO CONSECUTIVE FOOTBALL FIELDS. WITH THE MAIN FOYER REACHING HEIGHTS OF OVER 11 STORIES, THIS ULTRAMODERN FACILITY WILL REDEFINE THE LANDSCAPE OF THE MIAMI SKYLINE. TO ADDITIONALLY ENHANCE THE PASSENGER EXPERIENCE, THE TERMINAL WILL BE BUILT WITH STEEL COLUMNS AND SHAPED WITH FLAT ALUMINUM PANELS, WHICH WILL GIVE IT A VERY SMOOTH FINISH THAT FURTHER RECALLS THE SURFACE OF A PEARL. THE INTERIOR DESIGN COMPLEMENTS THIS INFRASTRUCTURE TO CREATE AN INVITING, MODERN, OCEANIC AMBIENCE.
