ADVANCED COURSE WITH DISCOUNT FOR AIA MIAMI

AIA Florida Course Details
The course will be held via webinar and will provide a detailed overview of what and how an architect should be including in their Construction Documents. Culled from the current edition of the Florida Building Code, the course facilitates a road map for plans examiners to more rapidly review the design for code compliance and lessening the required time to obtain and issue a building permit. A case study for a design project is included to demonstrate providing the code required information.
