

JOIN US FOR AN ARE STUDY SESSION

Construction & Evaluation (CE) focuses on construction contract administration and post-occupancy evaluation of projects. You should be able to demonstrate an understanding of and abilities in construction contract execution, construction support services (including construction observation and shop drawing or submittal review), payment request processing, and project closeout. In addition, candidates must also demonstrate an understanding and abilities in project evaluation of integrated building systems and their performance. [NCARB]

CONSTRUCTION AND EVALUATION

ARE STUDY SESSION
