Professional Summary

I am passionate about healthcare, sustainability and community-oriented designs. With over 3 years of experience across architecture and interior design, I have contributed to residential, hospitality, healthcare, and community-focused projects. As a LEED Green Associate, I am particularly interested in creating thoughtful, resilient, and sustainable spaces. I am hardworking, detail-oriented and dedicated to make an impact on the way we live through the spaces we create and the environments we shape.

Experience

Student Designer

02/2025 to 08/2025

Community Design Assistance Centre (CDAC), Virginia Tech | Blacksburg, VA

- Performing inventory and site analysis.
- Researching case studies/precedents for the particular project, assisting in planning, preparing for, and conducting community meetings/workshops, creating conceptual designs, master plans, and planting plans, etc.

Architect

07/2022 to 07/2024

Self-employed

- Interior renovation for a 5-star Hotel Lobby, conceptualizing material boards, procuring materials directly from vendors, and overseeing the execution.
- Designing a 100 villa community with sustainable concepts such as organic farming, solar paneled roofs, etc.
- Preparation of technical drawings, cost estimations, bill of quantities and site supervision.

Interior Designer

11/2022 to 05/2023

Livspace | Hyderabad, Telangana, India

- Designing interiors for residential spaces according to client requirements.
- Preparation of design presentations and materials boards for client approvals and sourcing materials for construction and budget-conscious designs.

Architect

10/2021 to 11/2022

NS Associates | Hyderabad, Telangana, India

- Designing interiors for residential and corporate buildings and space planning according to client requirements and sourcing materials for construction.
- Site supervision and preparation of technical drawings/working drawings.

Interior Designer

12/2021 to 07/2022

DDS Architects Ltd | England, UK

- Designing and researching interiors for a healthcare facility that aims to create inclusive spaces for people living with cognitive and/or sensory impairments.
- Selecting materials for different rooms with different color schemes and understanding and designing toilets for the differently abled.

Intern Architect

09/2019 to 06/2020

Gayathri & Namith Architects | Bengaluru, Karnataka, India

- Designing interiors for corporate offices and residential buildings and working with senior Interior Designers. Developing 3D renders and physical models.
- Preparation of interior presentations and developing material boards and design concepts and meeting with clients.
