Architectural & Interior Designer with experience supporting commercial interiors, workplace, mixed-use, and residential projects through BIM modeling, construction documentation, interior detailing, FF&E coordination, and consultant collaboration. Skilled in Revit-based workflows, space planning, and material systems. Experienced in multidisciplinary project teams, consultant coordination, and sustainable design solutions.

Professional Experience

- **Cuboid Architecture** **May 2025 – August 2025**
Architectural Intern *Virginia Beach, VA, USA*
 - Developed **Revit BIM models and AutoCAD drawing sets across 3+ projects and coordinated drawing packages** for residential, workplace, and commercial interior projects from schematic design through design development.
 - Produced **construction documentation, permit drawings, reflected ceiling plans, finish schedules, and millwork details**, supporting project delivery.
 - Collaborated with **structural, MEP, lighting, and specialty consultants** to integrate technical requirements into coordinated drawing sets.
 - Supported **material selection, FF&E coordination, and presentation packages** for client reviews and project documents.
- **LEAD Architects** **June 2023 – June 2024**
Junior Architect *Karnataka, India*
 - Prepared **construction documentation and working drawing packages** for 5+ residential, commercial, and mixed-use projects across SD, DD, and CD phases.
 - Coordinated with **structural, MEP, and landscape consultants** to resolve design conflicts and maintain project schedules.
 - Developed **interior layouts, finish schedules, material specifications, details supporting design development and construction**. Reviewed drawing packages and mentored interns, improving documentation quality and coordination efficiency.
- **Freelance Architect** **July 2021 – June 2022**
Architect *Tamil Nadu, India*
 - Led **design development and construction documentation** for farmhouse projects from concept through permit.
 - Prepared **space planning studies, interior detailing packages, and presentation drawings** tailored to client requirements. **Integrated sustainable material systems and passive design strategies to improve environmental performance and user comfort.**
- **WARP Architects** **July 2021 – December 2021**
Architectural Intern *Tamil Nadu, India*
 - Supported **concept design, interior detailing, site documentation, coordination** across multiple residential projects.
 - Assisted with **material studies, drawing updates, and presentation support** to maintain design quality and project momentum. Conducted site documentation, field measurements, and drawing updates supporting project execution.
- **Virginia Tech** **December 2025 – May 2026**
Operation Assistant - Facilities and Planning *Alexandria, VA, USA*
 - Supported facilities planning, scheduling, documentation management, and departmental coordination across multiple teams.
 - Maintained operational workflows, communication tracking, and administrative processes within a fast-paced environment.

Education

- **Virginia Tech | WAAC | NAAB-Accredited Program** **August 2024 – May 2026**
Master of Architecture in Architecture *Alexandria, VA*
- **CMR School of Architecture** **August 2018 – May 2023**
Bachelor of Architecture *Bengaluru, India*

Certifications

LEED Green Associate | Registered Architect - Council of Architecture, India | Associate AIA | GRIHA Certified | AutoCAD Certification | SketchUp Certification | Autodesk Revit Certification

Technical Skills

BIM, Autodesk & Adobe: Revit, AutoCAD, ArchiCAD, Adobe InDesign, Illustrator, Photoshop
3D Modelling & Rendering: SketchUp, Rhino, Lumion, Enscape, Twinmotion
Documentation: Construction Documentation, Permit Drawing Sets (SD → DD → CD)
Design & Detailing: Interior Detailing, Joinery, Material Systems, Design Development

Design-Build & Hands-on Skills

Tensile Bamboo Pavilion, Ferro-cement Thin-Shell Construction Workshops, Traditional Material Surface Technique Workshops
