About Me

As a creative and enthusiastic graduate, I am actively seeking an opportunity to kick-start my career in architectural and urban design. With a robust academic background in 3D modeling and graphic design, I am eager to bring my skills to a dynamic team, learn from experienced professionals, and collaborate towards achieving personal and organizational goals.

Awards

Henry Adams Medal

AIA, University of Miami | 2024

Awarded to the highest-ranking graduating student for scholarship and excellence in a professional architecture program

Integrated Studio Prize

University of Miami | 2023

Awarded to the project that best balances the complex demands of a comprehensive architectural design

Core Prize

University of Miami | 2023

Awarded to the student whose work best demonstrates their deep commitment to learning the discipline of Architectural Design while exhibiting exceptional creativity, craft, and rigor in each project

Design Skills

- Rhino3D
- Lumion
- AutoCAD
- Revit
- ArcGIS
- Model Making
- Adobe: Illustrator, InDesign, Photoshop

Education

Master of Architecture

2021 - 2024

University of Miami

GPA: 4.0

Certificate in Sustainable & Resilient Design

B.A. in Environmental Studies

2016 - 2020

University of Vermont

Minor in Green Building & Community Development

Experience

Studio Teacher Assistant, University of Miami

2023

- Hosted office hours and assisted first-year students in learning new design software such as Rhino3D, Adobe Illustrator, Adobe Photoshop, and AutoCAD
- Prepared lesson material according to the class outline to deepen students' understanding of architectural design theory

Rome Program, University of Miami

2022

- Observed and analyzed the artistic architectural and urban conditions of over fourteen Roman neighborhoods through immersive site visits
- Explored how building typology, historical context, politics, urban traditions, site design, and culture affect the critical issue of housing design

ULI Hines Competition, University of Miami

2021

- Led a multidisciplinary team of five graduate students from different schools to create a development program for a real, large-scale site in North America in a two-week time frame
- Thoroughly analyzed the chosen site to create a land use design proposal with market-feasible financial data
